SYLVANIA

About Us

The Sylvania brand is part of the Havells-Sylvania Group and is one of the world's largest manufacturers of artificial light sources. It has a broad product offering that includes incandescent, halogen, CFL, HID and LED lamps, alongside various special products for the professional specifier. Sylvania lamps are distributed from stock, through national sales operations, as well as via individual countries' professional distribution channels such as wholesalers, specifiers and installers; as well as to the consumer via the retail channel.

Halogen lamps with their beautiful, sparkling white light, are renowned for their unbeatable colour rendition, meaning that, unlike some other energy saving technologies, colours are shown in their true glory 100% of the time.

Couple this with their unique ease with which they can be dimmed on virtually any system, their physical dimensions exactly matching the poorer performance lamps they can replace, massive energy savings of up to 40% and increasingly long lives, it's no wonder that the halogen market is again growing so quickly and that they are again proving themselves the perfect choice for a wide variety of applications ranging from precise accent lighting in world leading museums and art galleries, to soft ambient lighting in your living room at home.

Sylvania has long been recognised as a world-leader in halogen technology and continues to invest in its European halogen research laboratories to offer an exceptionally wide range of traditional and cutting edge, highest performance lamps bringing end users savings in costs and hassle with extremely rapid pay-back times as well as improved environmental credentials, all with the simplest change of a light bulb possible!

Welcome Back Halogen!

Formed in April 2007, Havells-Sylvania is owned by Havells India Ltd, a US\$ Billion plus company. With 94 branches and representative offices worldwide, and over 8000 employees working in more than 50 countries; Havells has grown rapidly since its humble beginnings in Delhi in 1958. Havells has eighteen manufacturing plants in India, Europe, Latin America and Africa; producing globally acclaimed products, including: switchgear, cables, wires, luminaires and lamps.

Havells-Sylvania is a leading, full-spectrum provider of professional and architectural lighting solutions. Built on over a century of expertise in lamps and luminaires, Havells-Sylvania supplies state-of-the art products and systems to the public, commercial and private sectors, worldwide. Havells-Sylvania strives to deliver the finest products, service and consulting possible. All over the world, people rely on group companies: Concord, Lumiance and Sylvania, for top quality, energy-efficient solutions to suit their individual lighting needs.

Energy Related Product

ErP (Energy Related Product) Legislation was introduced in 2009 with the aim to reduce EU carbon emissions by 20% (compared to those in 2005) by 2020.

Over 1/3 of the electricity used worldwide for lighting can be saved leading to a reduction of over 450 million tons of CO₂.

With few exceptions, all lamp technologies are affected, supporting the drive towards most efficient technologies

All lamps have to achieve minimum energy efficiency and performance criteria, resulting in poorer performance lamps being banned from import into the EU

Visit www.sylvania-lamps.com for more information about ErP and our range
