## SYLVANIA

# ToLEDo T8 Tubes

### Leading in performance and design

Sylvania introduces a new range of high performance TOLEDO T8 LED tubes with best-in-class performance and reminiscent look of fluorescent tubes.

**ToLEDo T8 Superia V4** and **ToLEDo T8 V4** share the same glass tube construction design as traditional florescent T8 tubes and benefit from omni-directional 320° uniform light distribution.

The **ToLEDo T8 Superia V4** range offer best-in-class lumen package and reaches up to 4050lm and A++ rating with 156lm/W, helping to dramatically reduce energy consumption and achieve quick payback on investment.

Additionally, it has an impressive 200,000 switching cycles combined with 50,000 hours lifespan.

ToLEDo T8 V4 reaches up to 2700lm and A+ rating with up to 121 lm/W, perfect for customers looking for high-quality and energy efficient LED solution to replace conventional fluorescent T8 lamps. New improved switching cycles and 40,000 hours lifespan keeps maintenance cost low and gives complete peace of mind to customers.

The **TOLEDo T8 LED** range is suitable for general illumination in offices, supermarkets, department stores, train stations, petrol stations, parking lots and maintenance free applications.

**ToLEDo T8 Superia V4** and **ToLEDo T8 V4** are compatible with electromagnetic gears and also suitable for direct mains operation.

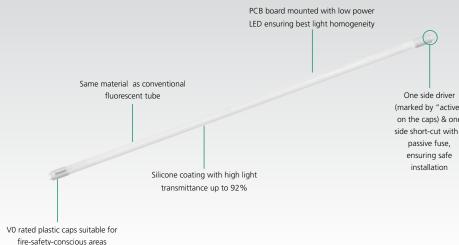

### ToLEDo T8 Tubes

#### Construction of ToLEDo T8 tubes

The ToLEDo T8 range is designed with the same construction as traditional fluorescent lamp, enabling to achieve wide light distribution and beam angle, therefore making it more suitable as a replacement lamp for conventional luminaires.

#### Advantages:

- Superb uniformity and light transmittance
- Benefit from wide light distribution angle 320°
- Wide beam angle 220°
- No bending
- No ageing and discolouration over time
- No dark spots
- Light weight
- Reminiscent look of florescent tubes.
- No contactable metal parts, therefore no potential risk of electric shock

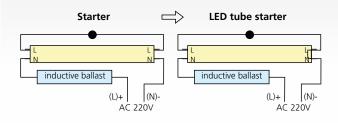

#### Installation instructions

- 1. Remove existing starter and replace with the starter provided with the
- 2. Not suitable for use on emergency or tandem ballast applications
- 3. Safety note: In case a parallel capacitor for power factor compensation is used inside the luminaire, it will reduce the power factor in combination with LED tubes and thus can impact the energy consumption. According to local requirements/regulations, consider that power factor/capacitor could need to be adjusted.
- 4. WARNING: If the outer jacket is broken conductive parts may still be active. Lamps must not be touched before making sure the mains current is not live. Switch off the power supply before replacing lamp!
- 5. Suitable for outdoor applications in weather proof luminaires provided lamps are run according to data sheet values and installation instruction.

### ToLEDo T8 range

#### ToLEDo Superia T8 V4

Designed for applications that requires higher lumen package and minimum maintenance.

- Up to 4050lm
- 156lm/W
- 5 year warranty
- 50,000 hours
- 320°
- Energy rating A++

#### ToLEDo T8 V4

Energy efficient and high-quality performance.

- Up to 5200lm
- 121lm/W
- 3 year warranty
- 40,000 hours
- 320°
- Energy rating A+ / A++
- Now includes 900mm, 1800mm and 2400mm lengths

## Toledo Superia T8 V4

# Best-in-class LED T8 solution for professional applications

#### **FEATURES**

- Best-in-class T8 retrofit range
- High lumen package upto 4050lm
- High lumen efficacy 156lm/W
- A++ Energy rating
- Wide range of colour temperature options: 3000K / 4000K / 6500K
- High power factor 0.95
- Better uniformity and light transmittance no dark spots
- 200,000 switching cycles
- No UV
- 50,000 hours average rated life (L70 F50) 5 times longer than conventional linear flourescent lamps
- Instant light
- Compatible with electromagnetic gear, also suitable for direct mains operation (AC 220-240V)
- Low power consumption
- Not suitable for operation with electronic control gear

## ToLEDo T8 V4

#### **FEATURES:**

- Retrofit for T8/T12 lamps, easy plug and play solution for magnetic ballast systems and direct mains operation (AC 220-240V)
- Lumen output upto 5200lm
- High Lumen efficacy 121lm/W
- Available in three colour temperatures 3000K/4000K/6500K
- A+ / A++ Energy Rating
- High power factor 0.90/0.95
- Better uniformity & light transmittance no dark spots
- 40,000 hours average rated life (L70 F50) 4 times longer than conventional lamps
- Instant light
- Low power consumtion
- Not suitable for operation with electronic control gear
