BEACON SHELF

HARMONIOUS SHELF LIGHTING

Beacon Shelf has been designed for the modern-day requirements of the retail world. The reflector optic pours light onto the shelf or display whilst reducing glare and increasing visual comfort.

This era of Online Shopping means retail spaces are now being regarded as showrooms or display cases of products. This has meant a greater importance on lighting – to create a true experience for the customer.

Beacon Shelf

FEATURES & BENEFITS

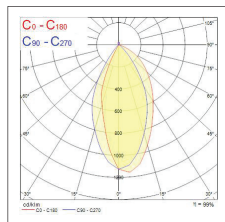

- Beacon Shelf has been specifically designed for lighting shelving in retail applications
- Use of an asymmetric reflector keeps glare at a minimum and improves visual comfort
- Uniform vertical illuminance
- Ideal for retail and display applications
- Colour rendering index, Ra 93 typical
- Available in 3000K or 4000K colour temperatures
- Non dimmable and DALI versions available
- For mounting on 3-circuit track (Lytespan 3)
- White or Black paint finishes as standard. Other colours available on request.
- IR/UV free light source without heat radiation
- Energy Class: A++, A+, A
- Long lifetime: 50,000 hours life at 70% of the original output (L70)
- LED technology provides an energy efficient solution with reduced maintenance costs
